

# COLINA MIRALTA SAMBEAT CMS TRIO

Javier Colina, doublé bass; Marc Miralta, drums; Perico Sambeat, alto sax and flute

The CMS trio is back! Their magic recipe of jazz, Latin standards and popular roots music is still more alive than ever after years on stages all over the world.

A live show with their own songs and classic jazz standards with African, Colombian and even flamenco rhythms and colours; ballads with a Cuban danzón feel; calypso...

Popular and accessible music for all audiences!

## New album "CMS 15 years" (TekneCultura/Karonte 2020)

CMS fifteen years! After three lustrums of musical career, it would seem that there is little to tell that we don't already know about these three enormous performers, although their musical wisdom seems limitless and their capacity to surprise the listener infinite.

Having the privilege of seeing and hearing them live is akin to the pleasure of savouring the extraordinary tasting menu of a three-star restaurant: high quality signature music based on the most genuine tradition, the hallmark of the house. A "gastronomic" journey through the musical roots that each of them has cultivated throughout their extensive musical careers.

The chefs Javier Colina, Marc Miralta and Perico Sambeat serve you a danzón or a bulería, a half rumba or a boogaloo, a soleá or a calypso, and they present it with exquisiteness and subtlety, with a wealth of nuances and a range of timbres that is almost impossible in a trio. With all this, they season each of their performances with spontaneity, strength and sensitivity.

Their music becomes an explosion of sensations that have been perfectly reflected in their fourth album, CMS fifteen years, recorded live, of course, in order to savour them with greater authenticity.
